

Swedish brides dating Rules

1. Don't be afraid to make the first move. In Sweden, it's perfectly acceptable for a woman to make the first move. So go ahead and ask that cute Swedish guy or girl out on a date!
2. Don't expect immediate physical intimacy. Swedes are notoriously private people, and they may take their time before they open up to you emotionally and physically. Don't take it personally if your Swedish crush doesn't immediately ask you out on a date or invite you over for a night of passion.
3. Be prepared for some awkward silences. Swedes are not known for being great conversationalists, so don't be surprised if there are some awkward silences during your date. Just enjoy the opportunity to get to know your Swedish crush better!
4. Don't be afraid to show your feelings. Swedes are very emotionless, but that doesn't mean they don't have feelings. If you're dating a Swede, don't be afraid to show your emotions, even if they're not reciprocated immediately.
5. Be patient. Swedes are notoriously slow to make things official, so don't expect your Swedish crush to put a label on your relationship anytime soon. Just enjoy the ride and see where it takes you!
